## **Auto Test November 2009**

Despite the poor weather, there were 7 competitors entered into the event which included a new member to PTMC. The Clerk of the Course and his assistant had set a challenging course combining slalom gates and garages to negotiate using the open land to its fullest potential.

Each competitor had 6 runs through the course which was marshalled throughout the day by members of the club ensuring accurate times, and penalties, for each competitor. Times were recorded on competitors time sheets at the end of each run. The day ran without incident and was deemed to be a great success by all who took part and watched.

The organisers and PTMC members would like to thank the landowners, the officers of the W.A.G. and Cefn Coed colliery, for their kind permission, continued support and co-operation for the event, and we look forward to this continuing in 2010.
